

AQUALISA

A GREAT DAY STARTS
WITH A GREAT SHOWER

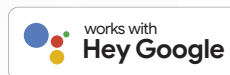

A close-up photograph of water splashing onto a white surface, creating a dynamic, textured pattern of droplets and ripples. The water is dark and contrasts sharply with the bright white background.

a better shower

AQUALISA INNOVATION

As pioneers of shower technology, Aqualisa has, over the years, established a reputation for quality and innovation of which it is justifiably proud. We really are perfectionists when it comes to showers and, as a result, the Aqualisa name is trusted by both homeowners and installers alike.

Welcome, therefore, to the latest brochure showcasing our extensive product ranges for smart, mixer, electric and power showers, where quality, performance and reliability come as standard. All our showers focus on safety and control to ensure we can deliver a better, more personal, showering experience for the whole family.

Quartz Touch™ smart shower, page 20

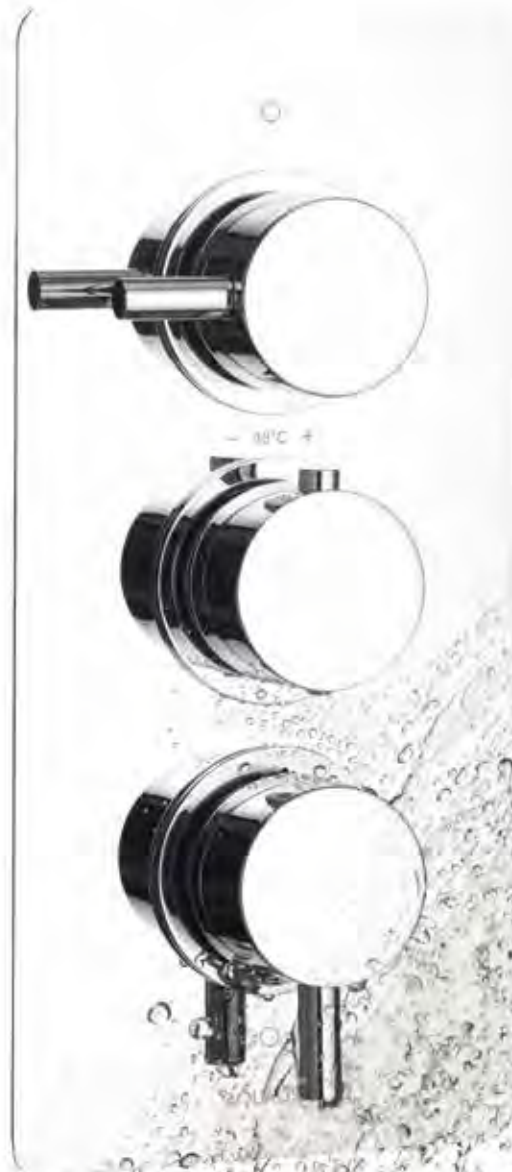

Dream™ concealed thermostatic mixer, page 42

Looks are important too and you will be able to find and select an Aqualisa shower design that expresses your own style aspirations and makes a bold feature statement as part of a new or existing bathroom design.

Our shower ranges are evolving all the time, and here we include the new cutting-edge Quartz™ Collection, the first-generation Wi-Fi connected, voice-activated smart showers and the exciting new range of Dream™ thermostatic concealed mixer showers that provide the widest choice of shower and bath fill combinations. We also feature our new tap ranges as complementary basin and bath brassware options.

SMART SHOWERS & BATHS

FOR EVERYDAY HOMES

Aqualisa introduced ground breaking digital technology for showers in 2001 and has remained the leading innovator in smart showering ever since. Unique features include one touch controls, remote activation and pre-set flow and temperature options that culminate in a truly personal showering experience.

Our pioneering technology works in all bathrooms, providing individual showering and bathing at your perfect temperature. As well as different shower configurations, the range includes smart bath filler options for total flexibility and reassurance for the whole family.

POWER SHOWERS

INVIGORATE YOUR DAY

Our Aquastream™ power shower is the ideal solution if you are experiencing a weak shower due to low water pressure from your stored water supplies.

Easily installed, it mixes water from the hot and cold supplies to create and maintain your desired temperature. An integral pump will boost the water flow up to an exhilarating 18 litres per minute, offering a great shower anywhere in the house.

ELECTRIC SHOWERS

THE FAMILY FAVOURITE

Aqualisa electric showers are simple to install and easy to use. As well as delivering an award winning performance, they have a contemporary design and finish.

The ideal solution for simple showering, an electric shower offers an endless economical flow of water and unlike other showering systems, will not use your stored hot water. The perfect solution for smaller or additional shower rooms or en-suites.

QUARTZ TOUCH™

Concealed – single outlet, dual outlet and bath fill

Even the most advanced smart control remains simple and intuitive with Quartz Touch™, Aqualisa's most personal showering experience.

A choice of pre-set shower programmes or individual shower and bath settings for the whole family, from anywhere, is modern showering personified.

USER FEATURES

- Simple shower activation using the Aqualisa app, or voice control
- Wireless remote control
- Option to change flow to 'eco, medium or max'*
- Safe family showering with precise thermostatic temperature control and adjustable maximum temperature
- Eco mode setting saves up to 33% on your water consumption and unique proximity sensor reduces water flow when you step away from the shower*
- Intuitive LCD display
- Choose from 4 spray patterns and an optional 230mm fixed head or bath fill to customise your experience
- Up to 5 years parts and labour guarantee

CONNECTED FEATURES

- Wifi, Mobile App, works with Hey Google or Amazon Alexa for voice control
- 3 pre-set profiles and create your own
- Multiple showers can be operated from 1 app
- Timer feature to set your shower duration
- Indicative usage dashboard tracks and records water usage, time and estimates costs
- Safety feature, protects the shower users from others adjusting the shower remotely via the app

For full range and features **See page 84**

*Feature may not operate on combination boiler systems.

QUARTZ TOUCH™

Exposed – single outlet, dual outlet and bath fill

Quartz Touch™ is available as a single or dual outlet option, with the choice of an adjustable handset featuring 4 spray patterns and an optional 230mm fixed drencher head. The shower can also divert to a programmed bath fill function.

It's easy to install with all approved domestic water supplies and the app makes it incredibly simple to create and store your shower choices, all activated from your phone, a remote control on the wall or by using voice activation.

USER FEATURES

- Simple shower activation using the Aqualisa app, or voice control
- Wireless remote control
- Option to change flow to 'eco, medium or max'*
- Safe family showering with precise thermostatic temperature control and adjustable maximum temperature
- Eco mode setting saves up to 33% on your water consumption and unique proximity sensor reduces water flow when you step away from the shower*

QUARTZ CLASSIC™

Concealed – single outlet, dual outlet and bath fill

A great shower has just got better.

What more can be said about Quartz Classic™? Lasting good looks, a pioneer of shower technology and a UK best seller. Now, it takes its rightful place in the smart bathroom as a Wifi connected shower control.

You can expect the same level of performance from this market leading shower but with the added convenience of control from your smart device, a remote control on the wall or by a simple voice command.

USER FEATURES

- One touch start and stop control
- Simple shower activation using the Aqualisa app, or voice control
- Optional remote control
- Safe family showering with precise thermostatic temperature control and adjustable maximum temperature
- Eco mode setting saves up to 33% on your water consumption*
- Intuitive LED display
- 105mm adjustable head, featuring 4 spray patterns and an optional 230mm fixed head or bath fill to customise your experience
- Easy to use button one touch start/stop control, divert optional
- Up to 5 years parts and labour guarantee

AQUATIQUE™

Mixer shower with adjustable or drencher head

The Aquatique™ range combines traditional elegance with Aqualisa's thermostatic technology, for an unsurpassed shower experience.

Classic styling meets sensational showering and the timeless luxury of solid brass valves and shower heads. Aquatique™ is a stunning addition to any bathroom. A shower that's as stylish as it is invigorating.

FEATURES

- Timeless, classical styling
- Luxury brass shower valve
- Choice of heads in chrome or gold finish
- Exposed and concealed systems available
- Aqualisa's unique bi-metallic thermostatic technology for precise, reliable performance
- Automatic cut-off, should hot or cold water fail, makes for safer showering
- Separate on/off and temperature control

For full range and features **See page 106**

MIDAS™ 220

Shower, bath shower mixer and shower column

Midas™ 220's sleek space saving design combined with quality metal finish and superb performance, makes it the perfect contemporary shower for a modern family bathroom. A brass valve with a slimline space saving design.

Choose between shower or bath/shower mixer to create a stylish coordinated look.

FEATURES

- Brass valve with slimline, space saving design
- Temperature override button for family-safe showering
- Integrated diverter for easy switching between outlets (shower column and bath/shower mixer)
- 105mm Harmony shower head with 4 spray patterns
- 230mm fixed drencher head
- Smooth chrome hose

Stylish looks combined with high performance, convenience and assured safety. The Midas™ 110 range boasts features such as safe touch controls and an integrated diverter to make it the perfect choice for all family bathrooms.

Features include all metal controls for style, durability and reliability.

FEATURES

- Stylish modern brass valve
- Temperature override button for family-safe showering
- Integrated diverter for easy switching between outlets (shower column and bath/shower mixer)
- Adjustable 4 spray 105mm Harmony™ shower head with easy clean nozzles to help reduce limescale build-up
- 'Eco' spray setting delivers up to 25% water saving without compromising performance
- 215mm fixed drencher head
- Quality metal construction

Harmony™ shower heads offer four spray patterns for sensational performance.

For full range and features **See page 110**

*Midas™ 100 bar mixer shower with adjustable head.
See page 112. MD100BAR*

MIDAS™ 100

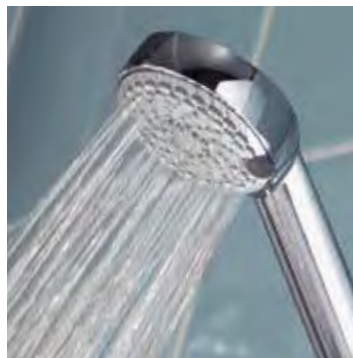

Shower and bath shower mixer with adjustable head

Smart, modern looks and outstanding performance make the Midas™ 100 shower and bath shower mixer range the perfect choice for the family bathroom.

The slimline bar valve of the Midas™ 100 features integrated flow and temperature controls, whilst safety is assured with a temperature override button.

FEATURES

- Slim, stylish bar mixer and bath shower mixer range
- Separate temperature and flow control
- Temperature override button for added family safety
- 'Eco' spray setting delivers up to 25% water saving
- Quality metal construction
- Easy clean nozzles to help reduce limescale build-up
- Adjustable 90mm Harmony™ head with a choice of 4 impressive spray patterns
- Midas™ 100 showers are suitable for all approved UK domestic water systems
- Bath shower mixers suit high pressure water systems only

5 year guarantee on Midas™ shower valves and 2 years on shower heads and kits will give you real peace of mind.

For full range and features **See page 112**

*Siren™ SL exposed mixer shower with adjustable head.
See page 114. SRN001EA*

SIREN™ SL

Mixer shower with adjustable head

Family friendly shower design that is a joy to use. Siren™ SL's exposed and concealed single lever controls make showering simple. Comes complete with an adjustable Harmony™ shower head with 4 spray patterns, including 'eco' spray.

A great option for easy refurbishment. The Siren™ SL exposed has clever adjustable elbows making it perfect for new refurbishment solutions.

FEATURES

- Luxury brass valve with chrome finish
- Easy to use, single lever control
- Family-safe thermostatic showering
- Harmony™ head with a choice of 4 impressive spray patterns
- The 'Eco' spray setting uses up to 25% less water
- Easy clean nozzles help reduce limescale build up
- Choose from exposed or concealed shower systems
- Suits all approved UK domestic water systems
- Adjustable inlet centres

For full range and features **See page 114**

COLT™

Mixer shower with adjustable head

Colt™ is an Aqualisa thoroughbred with style, quality and performance that comes as standard. A great looking shower with great performance.

Delivering the perfect temperature and control, coupled with striking styling in polished chrome. The Colt™ is the perfect addition for family bathrooms.

FEATURES

- Aqualisa's unique bi-metallic thermostatic technology for precise, reliable performance
- Exposed and concealed systems available
- Separate on/off and temperature control
- Temperature override button
- 90mm Harmony™ head with a choice of 4 impressive spray patterns
- 'Eco' spray setting delivers up to 25% water saving
- Suitable for all approved UK domestic water systems

*Colt™ concealed mixer shower with adjustable head.
See page 118. COLT001EA*

*Colt™ concealed mixer shower with adjustable head.
See page 118. COLT001CA*

Aquastream™ Thermo mixer power shower with adjustable head.
See page 122. 813.40.20

AQUASTREAM™

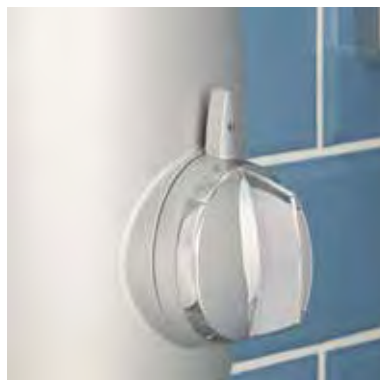

Power shower with adjustable head

Boasting true power shower performance, and designed specifically for gravity systems, the ergonomic thermostatic power shower with its own integrated pump delivers exceptional showering performance.

Perfect if space is limited, the Aquastream™ power shower is surface mounted so there's less likely to be damage to tiling.

FEATURES

- Integrated booster pump for power shower performance
- Separate flow and temperature control
- Two flow settings to make the most of your plumbing system
- 90mm Harmony™ head with a choice of 4 impressive spray patterns
- 'Eco' spray setting delivers up to 25% water saving
- Easy clean nozzles help reduce limescale build-up
- For gravity systems only
- 3 colour variants

Features include two flow settings to make the most of your plumbing system

For full range and features **See page 122**

TAPS

	Overview	Technical information
Downtown™	74	132
Uptown™	76	134
Central™	78	136

*Downtown™ large basin mixer tap.
See Page 132. DT.LPT.CH*

DOWNTOWN™

A soft square lever style that suits bold customised bathroom designs.

The minimalist aesthetic of Quartz Touch™ is matched by the modern chamfered design of Downtown™ taps to maintain a stylish and unified feel throughout the bathroom.

All taps are WRAS approved.

FEATURES

- Four tap options - small mixer, large mixer, deck mounted bath filler and bath shower mixer
- Angular soft square lever
- Aqualisa branded
- LP/HP systems
- Brass body with zinc handles
- Polished chrome finish colour
- 5 year guarantee (if product is registered)

For full range and features **See page 132**

UPTOWN™

A popular pin lever style that is easy to coordinate with concealed mixer showers.

The co-ordination of Uptown™ taps with Dream™ concealed mixer shower immediately creates a style identity from a distinctive mix of different surfaces and materials.

All taps are WRAS approved.

FEATURES

- Four tap options - small mixer, large mixer, deck mounted bath filler and bath shower mixer
- The popular pin lever style is easy to operate
- Aqualisa branded
- LP/HP systems
- Brass body with zinc handles
- Polished chrome finish colour
- 5 year guarantee (if product is registered)

For full range and features **See page 134**

*Uptown™ small basin mixer tap.
See page 134. CB.SPT.19*

*Central™ large basin mixer tap.
See page 136. CT.LPT.CH*

CENTRAL™

The rounded paddle lever style is ideal for a contemporary bathroom look.

Shown here with the popular Midas 220™ dual outlet valve, the Central™ rounded lever design complements a wide range of shower choices, adding a distinctive style element to the overall bathroom scheme.

All taps are WRAS approved.

FEATURES

- Four tap options - small mixer, large mixer, deck mounted bath filler and bath shower mixer
- Rounded paddle lever style
- Aqualisa branded
- LP/HP systems
- Brass body with zinc handles
- Polished chrome finish colour
- 5 year guarantee (if product is registered)

USEFUL INFORMATION

Benefits of smart showering

Quartz™ showers combine smart technology with simple, one-touch operation.

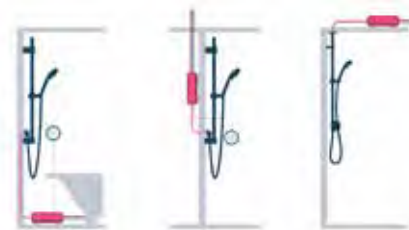

Our SmartValve™ checks the temperature constantly, so you don't have to.

Prepare your shower with a remote control, which can be used up to 10 metres away. Excluding Quartz Blue™.

Find your perfect shower temperature, flow rate, outlet and duration. Use the app to save it and recreate your perfect shower every time.

Our intelligent Aqualisa SmartValve™ is located up to 10 metres away from the bathroom, making new and replacement installations easy to plan and tidy to fit.

All Quartz™ Collection showers include bath fill options. Using a programmed setting, you can fill your bath to your perfect depth and temperature, from the comfort of your armchair.

“Hey Google, turn on my shower”

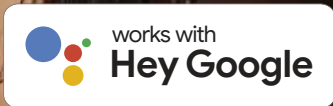

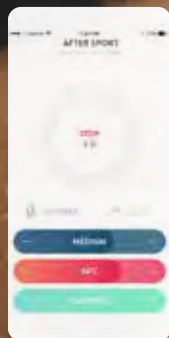

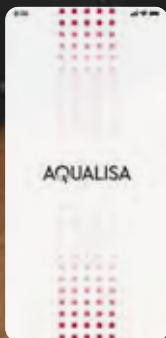

Wifi connectivity integrates Quartz showers into your smart home.

Start your shower or run your bath with your smart speaker.

The Aqualisa app lets you use your phone to start your shower or run your bath. You can also set personal profiles, keep track of your water usage and estimated costs.

Profile dependant on model

EVERY DROP COUNTS

Builders, developers and consumers are increasingly aware of their ecological responsibilities. It's estimated that an average family can get through around 600 litres of water a day*. A lot of that takes place in the bathroom.

Thankfully, advances in technology mean we can all save water and still stay clean. Aqualisa's designers have gone to great lengths to ensure we offer eco-solutions across smart, mixer and electric showering ranges with innovative ways to help you save water without compromising your showering experience. If we all do a little, a lot can be achieved.

*Based on figures from WaterWise (www.waterwise.org.uk)

VITAL SAVINGS

All our electric showers carry the **European Water Label** and are rated Energy Efficiency 'A'

ECO SMART*

Our smart showers have a number of unique eco features, to help you do your bit for the environment.

The SmartValve™ in our Quartz™ and Visage™ showers can be set to 'eco' mode capable of reducing water flow by up to 33%, or as little as 8 litres per minute.

Our new Q™ smart shower features a clever proximity sensor, meaning that water is automatically reduced to minimum flow when you move away to shampoo, condition your hair and then returns to your original setting as you move closer.

*Feature may not operate on combination boiler systems.

DID YOU KNOW?

THE AVERAGE BATH
USES UP TO
**100 LITRES
OF WATER**

That's in comparison to a quick shower, which uses around 30 litres of water. So if you want to be greener in the bathroom, it makes sense to shower. Activating Aqualisa's smart shower 'eco features' will help too – as will using the 'eco' spray on our Harmony™ shower heads, the eco-stop button on our bar valves or using appropriate flow regulators.

CONTROL THE FLOW

Our Midas™ showers are also available with a choice of regulators that limit water flow to as little as 6 litres per minute. They save water, reduce running costs and meet existing building regulations.

IN HARMONY WITH NATURE

Ideally, we all want a powerful shower that doesn't use too much water. Shower head design is crucial in terms of both ergonomics and ecological efficiency.

Some water-saving shower heads aerate the flow of water to deliver the 'illusion' of bubbles, but we weren't prepared to compromise the way your shower looks or feels. Our Harmony™ heads use intelligent design to deliver a fuller spray whilst allowing you to make water savings of up to 25%.

When the 'eco' spray on a Harmony™ shower head is selected, the shower head concentrates and angles the spray from its two outer rings. The result is a spray pattern that is refreshing and generous yet incredibly efficient in terms of water consumption.

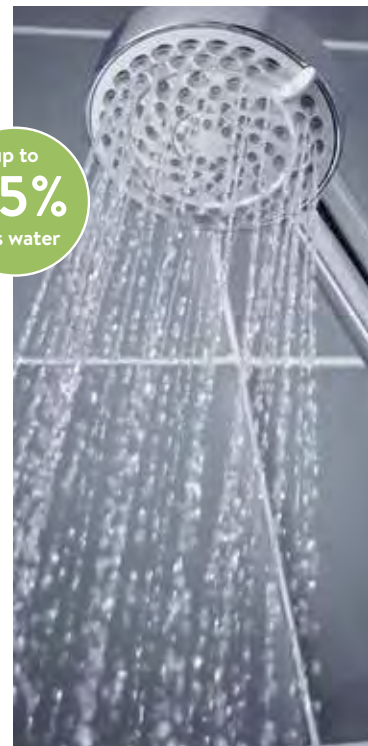

Harmony™ shower heads supplied with Quartz™, Visage™, Midas™ 100 and 110, Aspire™ DL, Siren™ SL, Colt™, Aquastream™ and Dream™.

25%
less water

REFURBISHING AND REFITTING YOUR BATHROOM?

Refurbishing an old bathroom from scratch can be a big job, so if time and budget are limited, or you simply want to smarten up your shower, why not opt for a refit? When it comes to refurbishments, Aqualisa has long been regarded as a go-to brand by those in the know. All with good reason, because no matter the system or showering technology, there's a very good chance we'll be able to help you find the perfect solution.

CONVERT YOUR MIXER VALVE TO A SMART SHOWER WITHOUT RE-TILING

You can now update to a smart shower without having to re-tile your shower area. The Quartz Smart Retrofit Shower allows you to replace an exposed mixer shower with any choice of exposed shower from the Quartz™ Smart Collection.

The smart control docks with the attractive chrome shelf to hold the shower unit securely in place without requiring new tile work. If necessary, a rail extension to the ceiling allows the new shelf assembly to be positioned at exactly the required height to cover existing pipework connections. A unique upgrade solution as well as useful storage.

QUARTZ™ SMART RETROFIT WALL PLATE

Replacing an old built-in-shower with a Smart model is exciting. However, if you find some damage when you remove your old shower, you can easily conceal this with a Quartz™ Smart retrofit wall plate. It's perfect for disguising the cavity left by the old valve and creates a streamlined appearance.

GO SMART, MINIMISE DISRUPTION

An exposed Smart shower can be up and running in as little as a few hours. A brilliant solution for any new bathroom, but it's especially good for over baths or bathrooms where there hasn't previously been a shower.

Because the control is mounted on the shower rail which doubles up as the blended water pipe – all that needs to be done is to feed the pipework through a small hole in the ceiling, connect it to the SmartValve™ and fix the shower to the wall – no damage to existing tiles or décor. It really is that simple.

DID YOU KNOW?

A SMART SHOWER CAN SOLVE NEGATIVE HEAD

If you need to fix a shower head above the water tank base, choosing a Smart shower with a pumped SmartValve™, makes it perfect for loft conversions!

UPGRADE A BAR VALVE TO MIDAS™ SHOWER COLUMN

Changing your bar valve? Why not upgrade to a new, multitasking bar valve that offers the versatility of two shower heads? Thanks to the clever retrofit features of bar valve mixers such as Midas™ 110 and 220, installing them is a lot easier than you might think.

Midas™ 220 shower column

REPLACE AN EXPOSED SHOWER WITH AN ASPIRE™ DL OR SIREN™ SL

Replacing an older, exposed shower doesn't need to be difficult when you can use one of Aqualisa's new generation mixer showers. The exposed models of both our Aspire™ DL and Siren™ SL shower ranges feature adjustable inlet centres, ideal for refurbishment projects where a degree of flexibility is required.

EASIER ELECTRIC SHOWERING

If you need to upgrade an electric shower, look no further than Quartz™ Electric. The shower has been designed with refits in mind and has an extra roomy 'footprint' to hide all traces of the previous shower.

Your installer will also love it as the Quartz™ Electric features two positions for earth connection and will also allow you to use the previous shower's compression elbow, handy for simplifying the replacement procedure.

You have our full support

We pride ourselves on fast, friendly and efficient customer service. So, whether it's a quick question about your new shower, a technical query or if you would like to arrange a visit from one of our nationwide service engineers, simply pick up the phone, email us or visit our website for a live chat. We'll be happy to help, regardless of the age of your shower.
