All retail prices featured in this catalogue are effective from the 1st May 2021. Prices include VAT at 20%.

All of the bathroom products featured in this catalogue have been carefully selected from Ideal Standard's extensive range. For the complete Ideal Standard range, including kitchen sink mixers and products for commercial installations, please visit www.idealstandard.co.uk.

For over 100 years, Ideal Standard has been focused on one single mission: to make life better for our customers. We do this by bringing emotional meaning to functional perfection through considered design, always innovating to anticipate the demands and aspirations of modern living.

The bathroom is a living space

Leaders in Modern Living

Over the last century, our innovations have transformed the bathroom from a purely functional space to an integral part of the home.

We were the first UK manufacturer to introduce smart solutions for smaller spaces. Take our Concept Easybox Slim. A built-in, thermostatic shower slim enough to fit inside 43mm cavity walls. Dual-Flush – a standard feature across all our collections – saves millions of gallons of water every day. Firmaflow brings a new standard of durability and safety to our showers. And our award-winning *Aquablade* technology means flushing has never been quieter or more efficient.

We continue to redefine the bathroom experience.

AQUABLADE®

Unrivalled innovation, redefining the industry

AquaBlade® rimless flush technology

Ideal Standard's award-winning technology sets new standards in flushing performance. Cleaner, smarter and quieter, AquaBlade® outperforms all others on the market and is included in the Tesi collection.

AquaBlade® ensures outstanding levels of hygiene. A 'microslot' channel in the rim releases two powerful blades of water that flush bacteria away. It rinses 95% of the bowl surface (compared with traditional WCs which leave 20% of the bowl unwashed). There's no unhygienic splashing and the lack of overhanging rim makes it easy to clean.

CLEANER

AquaBlade Technology ensures 95% of the surface area is rinsed.

SMARTER

More effective and efficient use of water compared to standard flushes.

QUIETER

AquaBlade is proven to be up to 25% quieter than our equivalent models.

AquaBlade®

This symbol denotes products with AquaBlade flush technology.

Partners for life

An Evolving Family

We are one of the largest bathroom manufacturers in Europe. And when it comes to craft and materials, we only accept the best.

Our ceramics factories can be found in the Czech Republic, Italy, Bulgaria and the UK – every unique piece of porcelain made to the highest standards using vitreous china and fine fire clay.

Our mixers, taps and showers are engineered in Germany, where an unrivalled level of excellence has been passed down from generation to generation.

We share this commitment to quality with our installers. Working closely to ensure our products are easy to fit, easy to maintain and built to last.

Designed to perform

The Eternal Value of Design

You should never have to choose between style and performance. We think they go hand in hand.

We collaborate with renowned designers – like Robin Levien and Jasper Morrison – to ensure we're leading the way in contemporary bathroom aesthetics. But design is more than skin deep. Behind every minimalist curve, you'll find that function, safety and ease-of-use are tested to their limits.

Ideal Standard is where manufacturing heritage meets design flair. And whatever style you're looking for, you'll know every product in your bathroom will perform, beautifully.

Developed in collaboration with Europe's leading designers, our collections are ideal for every bathroom – regardless of the size of your space, style or budget. With intelligent space-saving ideas and stylish storage solutions, our collections offer award-winning contemporary design alongside authentic period aesthetics – without ever compromising on performance

THE COLLECTIONS

Concept Space

Space is the ultimate luxury. No matter how much we have, it never seems enough and this is doubly true in the bathroom.

Ideal Standard have been the industry leader in developing smarter solutions for smaller bathrooms. The average family bathroom in the UK is no larger than a king size bed. What's more, awkwardly placed windows and doors can make the space you do have difficult to configure. The following pages demonstrate the ingenuity of Concept Space and some of its space-saving possibilities.

Features

Intelligent, space-maximising storage solutions

Short projection Cube or Arc basins

Guest basin furniture solution

Compact and corner WCs

Basins which fit into corners

Spacemaker bath

Square shower bath

THE COLLECTIONS

Concept Space Corner ensuite

45cm Arc corner basin (p.26)

Corner close coupled WC suite with seat & cover (p.27)

Corner basin unit (p.32)

800mm Connect 2 quadrant shower enclosure (p.138) with Simplicity flat top shower tray (p.150)

Ceratherm 100 exposed thermostatic shower with Idealrain M3 kit (p.167)

Accessories from p184.

Using corners

This compact ensuite fits snugly into the corner of a bedroom. It cleverly makes use of all three corners, provides storage and leaves enough room in the centre to comfortably use each facility.

THE COLLECTIONS

Concept Space Ensuite

Space-savers

The Concept Space range is full of clever space-saving features.

This ensuite is just one metre wide – the width of the shower enclosure. Installing a short projection basin and a compact WC creates extra room to use the facilities comfortably.

Arc 55cm short projection basin with pedestal (p.25)

Arc compact close coupled WC suite with seat & cover (p.26)

1000mm Connect 2 slider alcove shower enclosure (p.142), with Simplicity 1000 x 800mm flat top shower tray (p.149)

Concept Easybox Slim thermostatic shower mixer with round faceplate & Idealrain M3 shower kit (p.165)

Accessories from p184.

THE COLLECTIONS

Concept Space Spacemaker bathroom

Making space

In this bathroom the window is central on one wall and overlaps the bath area. The right hand Spacemaker bath narrows at the deep end so the bath screen can be hung clear of the window.

The short projection Arc basin leaves plenty of room for the door to swing inwards. The compact WC opens up the tight space and makes it feel more open.

55cm Arc short projection basin with pedestal (p.25)

Arc compact close coupled WC suite with seat & cover (p.26)

Spacemaker bath (right hand) with front bath panel (p.29)

Connect 2 angle bath screen (p.144)

Concept Easybox Slim thermostatic shower mixer with square faceplate & Idealrain M3 shower kit (p.165)

Luxury clicker bath filler, waste & overflow (p.198)

Accessories from p184.

Smarter space

A family bathroom needs to work hard to provide a shower before breakfast, bath time for the kids and a sanctuary at the end of the day. Concept Space products utilise every inch to meet these demands, without feeling cramped or compromising on style.

THE COLLECTIONS Concept Space Fitted storage

60cm Cube basin (left hand) (p.24)

Compact back-to-wall WC with seat & cover (p.27)

600mm basin unit (left hand) (p.31);
WC unit (right hand) & worktop (p.31);
600mm fill-in shelf unit (p.31)

60cm mirrored cabinet (p.190)

Accessories (p.192), bath (p.28), basin waste (p.198) & mirror (p.186).

THE COLLECTIONS

Concept Space 1.5m bathroom

A smaller shower bath

When space is really tight the 150cm square shower bath combines a full size showering area with a shorter bath. In the image below the short projection Cube basin fits neatly into the return of the bath. The compact WC leaves plenty of room for manoeuvre in this tiny bathroom.

55cm Cube basin with pedestal (p.25)

Cube compact close coupled WC suite with seat & cover (p.26)

150cm Square shower bath, left hand, with front panel & square shower bath screen (p.28)

Accessories from p184.

Space for everything

Storage under the basin

Concept Space maximises the potential storage area under its basins. Compact basin units have one drawer-front but hidden inside there's a second drawer with handy storage boxes for grooming products and accessories.

The 600mm left or right handed basin unit includes two drawers and a shelf.

THE COLLECTIONS

Concept Space Furniture

60cm Cube basin, left hand (p.24)

600mm basin unit, left hand (p.31)

Close coupled WC suite (p.26)

Accessories (p.192) & mirror (p.186).

Ergonomics

Concept Space products that are left or right handed have been designed to fit neatly against walls. The product is offset to give you sufficient space to use it comfortably. For example the WC unit is handed so that the user is not cramped up against a wall. A clever compartment for storage has been slotted into the extra space.

Furniture features

Soft close drawers and doors

Basin units with two drawers

Basin units for left or right hand basins that fit into corners

Corner basin unit

Left or right hand WC unit includes storage and a water-saving dual flush cistern

Tall unit with 5 glass shelves

Mirrored cabinets (see page 190)

Guest basin unit, wall hung or floor standing, left or right hand

Chrome legs available for wall hung units that need extra support

5 YEAR guarantee

Our furniture is manufactured using the highest quality industry standard materials and finishes of Melamine Faced Chipboard (MFC) and high gloss laquered finishes with full chain of custody for FSC® certification.

Space-Saving

Compact products designed for smaller bathrooms.

Cloakroom solutions

Guest basin unit with add on unit

Right hand guest basin unit

THE COLLECTIONS

Concept Space Understairs cloakroom

45cm Cube guest furniture basin, left hand (p.24)

Compact wall mounted WC with seat & cover,
Conceala 2 cistern & support frame (p.27),
contemporary flushplate (p.201)

Wall hung guest basin unit, left hand (p.32)

Accessories (p.192), basin waste (p.198) & mirror (p.186).

Floor standing guest basin unit

THE COLLECTIONS

Concept Freedom

Inclusively designed bathrooms can be beautiful. Award-winning designer Robin Levien worked with occupational therapists to develop solutions that are both accommodating and aesthetically pleasing.

Concept Freedom is a range of accessible ceramics, baths and showers that are interchangeable with both Concept Air and Space collections. Thoughtful design for an independent lifestyle.

THE COLLECTIONS

Synergy wetroom 1000mm panel with modesty glass and straight bracket (p.133)

Shower seat (p.43)

45 & 60cm contemporary grab rails (p.43)

Freedom dual shower with pin handles, M1 rainshower, fixed riser and M3 handspray (p.42)

Step-free showering

A wetroom is the ultimate in luxury but a few additions make it more accessible. The chrome grab rails and shower seat have been elegantly designed to blend in and a modesty panel protects the user's dignity when showering with a helper. Finally the Freedom Dual shower valve has pin handles to make the controls easier to turn.

Stress free bathrooms

Safer bathing

For the bath project, we combined our many years' experience with the knowledge of later-life health specialists Red & Yellow and experienced occupational therapist Anava Baruch to ensure it was designed with independence and safety in mind.

'Getting in and out of the bath is often the first thing that people start to struggle with as they become less mobile. The design of the bath makes bathing a much less fraught and dangerous experience, whilst looking great too.' Anava Baruch, Occupational Therapist

Freedom bath features

Winner of innovation of the year in KBB's Retail Design Awards 2017

A lowered bath height of 460mm for easier access

A foot rest provides a step for easier entry and exit. It also aids standing by providing something stable to push against

The polyurethane gel headrest has 'shape memory' which responds to the arc of the neck and distributes pressure to provide firm, comfortable support

An extra-wide ledge is reinforced to provide a hand-hold to aid standing and a seating area for a user or carer

The bath is made in Idealform Plus+, our strongest material, for complete stability

THE COLLECTIONS

Concept Freedom Bath

170 x 80cm Idealform Plus+ right hand bath with front bath panel and headrest (p.40)

Two 45cm support rails (p.43)

Wheelchair accessible features

60cm basin designed for a wheelchair user to get as close as possible

The basin can be hung lower and at the correct height for the individual user

Elongated wall hung WC bowl with a 75cm projection for easy wheelchair transfer

Choice of standard, slow close or ring WC seat

Hinged arm

45 and 60cm contemporary chrome grab rails for extra safety

Accessible design

Design solutions for the less able.

THE COLLECTIONS

Concept Freedom Wheelchair user

THE COLLECTIONS

Studio Echo

When Studio was originally launched in 1986, it brought modern design into ordinary bathrooms for the first time. Three decades later, Ideal Standard are just as proud of its successor, Studio Echo.

Robin Levien has, once again, brought all of his expertise to the challenge of the new design. Technological advances in production mean that Studio Echo is more refined, the shape is pure and organic, tanks are smaller and seats are thinner. It is completely up-to-date, while echoing the simple lines and affordability that made Studio part of Ideal Standard's design heritage.

Features

Softly spoken design that blends with most interior styles

Three sizes of washbasin to suit every installation: 60 / 55 / 50cm

Semi-countertop, handbasin and corner basin options for ensembles and cloakrooms

WCs are dual flush to promote water-saving

A space-saving compact close coupled WC

Hidden fixings for a contemporary look that is easier to clean

THE COLLECTIONS

Studio Echo Basin

55cm basin with semi-pedestal (p.62)

Ceraflex® basin mixer (p.114)

Basin waste (p.198) & mirror (p.186).

THE COLLECTIONS

Studio Echo Bathroom

60cm basin with pedestal (p.62)

Close coupled back-to-wall, short projection WC suite with seat & cover (p.63)

Tempo Arc Idealform shower bath, right hand, front & end bath panel, shower bath screen (p.79)

Ceraflex® basin mixer (p.150) & dual control bath filler (p.114)

Alto Ecotherm shower mixer (p.178) with Idealrain S3 shower kit (p.155)

Accessories (p.192), basin waste (p.198) & mirror (p.186).

An Easy fit

With echoes of mid-century shapes, Studio Echo has a friendly, easy-to-live-with personality. It will survive decades of use in a family bathroom, while easily blending with interior fashions as they come and go.

Combine Studio Echo ceramics with Tempo baths (p.79) and furniture (p.82) for a complete bathroom or ensuite facility.

THE COLLECTIONS

Studio Echo Bathroom

55cm basin with semi-pedestal (p.62)

Wall mounted WC with seat & cover (p.63), Prosys 820mm WC frame (p.201) and Solea flushplate (p.203)

THE COLLECTIONS

Tempo

Tempo is designed with the family in mind. While retaining a pure and minimal look, its softer edges make Tempo the perfect choice for families. Free of sharp corners, this is design for everyday life where practicality and safety come first.

Created by award-winning UK product designer, Robin Levien, who keeps a close eye on interior trends and changing habits. Tempo is a next generation take on the square aesthetic.

Features

60 / 55 / 50cm washbasins

80 / 60 / 50cm vanity basins

40 / 35cm handrinse basins

50cm countertop basin &
55cm semi-countertop basin

Four WC models

Space-saving short projection WCs and
150cm bath

Wide range of baths including a 139 litre
water-saving bath

Complementary range of Tempo taps and
mixers, see page 140

Furniture and storage solutions

Beneath the basin

Basin storage

Busy bathrooms need storage for life's essentials and Tempo furniture makes the most of the space beneath a basin.

The space-saving pedestal unit cleverly replaces a ceramic pedestal with storage.

Tempo vanity basins seamlessly integrate with a choice of freestanding and wall hung vanity units. The soft edges of the basin extend beyond the width and length of the furniture to create a spacious surface for products and pampering. Legs are available for wall hung versions where additional support is needed.

THE COLLECTIONS

Jasper Morrison

Ideal Standard teamed up with Jasper Morrison, one of Europe's most successful designers, to create this unique collection in his signature style. His contemporary forms combine soft squares with oval interiors which have been developed across a range of basins and sanitaryware. Award-winning design that has become a modern classic.

Mixers & Taps

The right mixers and taps can transform a bathroom.

That's why our fittings for basins, baths and showers have been designed to make a statement. But they don't just look beautiful. They work beautifully too. Durable. Constructed from the finest materials. And offering unparalleled levels of comfort and control. They feel every bit as good as they look.

Calista	116

Delivering water

Quality is assured with all Ideal Standard mixers and taps. We have our own factories across Europe, ensuring quality control and engineering excellence.

Temperature control

Our pioneering ceramic discs feature temperature control within a comfort zone which is controlled through the single lever on basin mixers and bath fillers. Some mixers also feature a pre-set maximum temperature limit stop to prevent scalding.

Water-saving

Our basin mixers are pre-fitted with removable aerators that limit water flow to 5 litres per minute. This controls water usage while still providing a satisfying washing experience.

Firmaflow® ceramic disc technology

FirmaFlow® is our latest, improved high-performance ceramic disc which is featured in Tempo and Ceraflex ranges

FirmaFlow® is designed to last 500,000 use-cycles (much longer than the industry standard of 300,000) which equates to 10–15 years of daily use.

The new 38mm cartridge is more versatile and fully compatible with tap bodies for our existing 40mm cartridge.

The technology includes a hot limit stop to prevent scalding. It also has an enlarged comfort zone for finer temperature adjustment between 34 and 42°

Guarantee

All taps and mixers are guaranteed for 5 years.

Water-saving

Pre-fitted eco flow regulators reduce water flow to 5 litres per minute.

Temperature limit stop

Allows a maximum temperature to be set to ensure safety and comfort.

High pressure

Product only suitable for high pressure installations with a minimum 1 bar.

Easyfix

Allows for fast and hassle-free installation.

Tested to the limits

Because we believe in taking quality to the limit, every tap and mixer is made to exceed both British and European standards. All our products undergo exhaustive testing before they leave the factory. Everything from water pressure and temperature to noise levels are tested and retested. This is how we can guarantee faultless function and reliability.

TAPS & MIXERS

Tesi

Basin mixer

Tesi mixers express quality, style and versatility in equal measure. Designed by Artefakt with clean geometric lines, counter balanced by soft round forms, that complement the Tesi collection. Engineered in Germany to control water flow and temperature with impeccable precision.

Features

Complements the Tesi ceramic and bath collection

Temperature limit stops can be pre-set for comfort and safety

FirmaFlow® ceramic cartridges with a lifespan of 500,000 cycles

Pre-fitted 5-litres per minute eco flow regulators to save water

Flow straighteners supplied to maximise flow rate

Easyfix for hassle free installation and reduced risk of leakage and limescale

Flexible tails to simplify and speed-up installation.

WRAS certification

Shower Accessories **182**

Efficient. Powerful. Ergonomic. Stylish. A good shower means different things to different people. Which is why we have a wide choice of enclosures, trays, valves and shower kits that you can combine to fit your individual needs. Whether you're embarking on a spacious wet room or need a smart space-saving solution, our innovative products will turn a good shower into a great one.

Which shower enclosure?

Ideal Standard understand what it takes to make the perfect shower environment. The main considerations for planning are access, space and position. From ingenious door mechanisms that work in the smallest ensuite to spacious enclosures for family bathrooms, we have a solution for every conceivable scenario.

Expert engineering means our shower enclosures and bath screens are full of clever features which make them not just a pleasure to use but easy to install, clean and maintain.

Features

Concealed fixings

The cover profiles click easily into place during installation and combine with top caps to conceal all fixings.

Smooth running wheels

Quality components ensure doors glide along effortlessly and silently.

Rise and fall hinges

Ensure doors open and close with ease.

Horizontal adjustment

Allows perfect fitting to out-of-true walls. Check each collection for specific adjustment values.

Power shower proof

Enclosures have been tested to ensure that even with the most invigorating of showers the seals remain watertight.

Corner Installations

Alcove Installations

Guarantee

Enclosures, wetroom panels and baths screens have a 10 year guarantee.

Glass thickness

8mm or 6mm toughened safety glass.

Idealclean

Reduces cleaning time by up to 90%. A special coating makes glass easier to clean and it stays cleaner for longer.

Click & clean

Lower wheels and panels can be released for cleaning. The panel clicks back into position for a watertight seal.

Horizontal adjustment

Profile can be adjusted to allow for untrue walls. Check each range for measurement.

Corner Installations

Quadrant/offset quadrant

These curved enclosures suit almost any bathroom design, creating an open environment, even in restricted spaces.

Sliding Door with side panel

Sliding doors offer maximum access where there is limited space to open a door. They can also work well in larger spaces to create luxurious showering areas.

Corner entry

When space is limited on either side of a shower enclosure a corner entry with sliding doors offers an effective solution.

Pivot door with side panel

These doors swing open to offer wide access, which when combined with a side panel creates a light and airy showering area.

Infold/bifold door with side panel

When there isn't room to open a door an infold door is a good solution. It offers wide access in tight spaces. A bifold option folds both inwards and outwards.

Alcove Installations

Sliding door

Sliding doors are a practical solution for alcoves, especially larger spaces. The door glides on smooth running wheels for access.

Pivot door

These doors work well in alcoves allowing the maximum showering area combined with the maximum access.

Infold/bifold door

The infold door is a great option for smaller spaces. It folds inwards to provide full access. The bifold option folds both inwards and outwards.

SHOWERING

Synergy

A new world of showering

With a sophisticated semi-framed design and exposed glass edge doors, Synergy has been designed to blend seamlessly into any interior. This contemporary range of luxurious shower and wetroom solutions is beautifully engineered to the highest quality specification.

Simplicity shower trays

Simplicity shower trays complement our enclosures. These slim, low profile trays are strong and durable with a clean contemporary design which makes them suitable for a wide range of installations.

Shower tray shapes

There is a wide range of shapes and sizes available for every type of installation.

Upstands

Upstand trays feature a water retaining lip around the edge that is tiled into the wall to minimise water leaks (see right).

The shower is installed against the finished wall with plaster board on top of the upstand. The tray is then tiled into the

wall by tiling over the upstand onto the tray.

Where an upstand is not required around the whole tray a roll of flexible adhesive upstand is available to purchase which can be cut to size as required.

Features

40mm height excluding upstand

Made from lightweight stone resin

Acrylic capped ABS offers strength and stability with a smooth, scratch-resistant gloss surface

Floor standing or riser installation.

Slim, low profile trays with a choice of upstand solutions for leak-free installation

Supplied with a 90mm fast-flow chrome waste

Which shower mixer?

An installer will help you identify the perfect combination of mixer and shower kit for your hot water system. This page helps to identify some of the main features to help you compare products.

Thermostatic

This is the safest type of shower. Thermostatic valves maintain a constant temperature irrespective of hot or cold water flow, rate, pressure or temperature. There is no need to continually adjust the temperature setting during showering. For the increased safety of vulnerable users many thermostatic valves feature a temperature safety stop of 40°C or a temperature limit stop which can be set to 40, 43, 45 or 50°C

Manual

This type of shower relies on the temperature of the hot water system. It does not compensate for variations in hot and cold water flow rate, pressure or temperature. It includes a temperature limit stop with 7 settings to reduce the amount of hot water that enters the mixer.

Water pressure

Many users prefer the indulgent force of a shower fed by a high pressure, mains water system. An installer will help you identify your water pressure which is measured in bar*, however this is a simple guide to the different heating systems:

Mains water

Combination boilers: between 1 & 5 bar.
Vented systems: between 1 & 5 bar.
Pumped gravity fed: between 1 & 3 bar.

Gravity fed

Water is stored in a cold water tank in the loft: 0.1 bar.

* 1 bar is equivalent to 10 metres in height between the bottom of a cold water tank and the top of the shower head.

Guarantee

Shower mixers and kits are guaranteed for 5 years.

Water-saving

Eco button limits flow rate to 50% to save on water usage, with manual override.

Ceramic disc

A ceramic disc water flow cartridge that is robust, drip-free and impervious to lime deposits.

Temperature limit stop

Limit outlet water temperature to a preset level, with manual override.

Safety stop

Limits outlet water temperature to 40°C to protect vulnerable users, with manual override.

High pressure

Product only suitable for high pressure installations with a minimum 1 bar.

Cool body

Body remains cool to the touch at all times to ensure safer use and prevent burning.

TMV Scheme Classification

Independent thermostatic mixing valve accreditation.

Freedom Easybox Slim
Built-in shower valve with lever handles for improved accessibility, see page 165. Shown with Idealrain M3 shower kit.

SHOWERING

Concept Easybox Slim

Ultra slim German engineered shower mixers; superior water tightness and flow performance that are simple to install, by design.

This thermostatic built-in shower mixer is available in a choice of round or square faceplate. The Concept Freedom version features lever handles to make showering easier for those who find turning controls difficult.

Round

Square

Ultra slim sealing box

The plastic sealing box fits into a 43mm cavity. The minimum built-in depth of 58mm is accommodated within the cavity, plasterboard, tiling and adhesive.

The plastic sealing box gives increased strength and durability with double sealing to reduce risk of leakage. The front is sealed with a plastic lid which has tapered seals to the main box and around the two handles. The outer chromed faceplate is not sealed and can easily be removed for cleaning.

Faceplate

Superior chromed metal faceplate with separate flow and temperature controls, including 40°C indicator for safe showering.

Thermostatic cartridge

Proven thermostatic cartridge and flow control to ensure trouble free operation.

Thread inlet

Rotating threaded inlet connection for easier connection.

Versatile Mounting bracket

The supplied bracket can be fitted to any of the four sides and fixed onto a cross bearer or upright in the cavity wall.

Watertight

Watertight, solid brass body construction for durability.

Features

Designed for easy installation, see page 164

The bath shower mixer includes a diverter within the flow control. Turn clockwise for shower flow, anti-clockwise to fill the bath (use with Idealfill, page 198)

Shower packs include an M3 Idealrain shower kit with a round or square handspray to match the faceplate

The handspray features 3 spray modes: rain, fine rain and massage. It includes a removable 8 litres per minute eco flow regulator to save water

Thermostatic mixer, faceplate and handles are supplied in one box, as are the shower packs

Designed to be installed on low pressure gravity hot water systems (minimum 0.1 bar)* and all types of high pressure systems**

Winner of the Best Kitchens & Bathrooms Product category at the Housebuilder product awards 2013

5 YEAR guarantee

* Minimum pressure for satisfactory bath fill is 1 bar
** Maximum 5 bar dynamic

SHOWERING

Concept Easybox Slim shower pack

Built-in thermostatic shower mixer with round faceplate and Idealrain M3 shower kit (p.165)

Concept Easybox Slim

Step-by-step easy installation

- 1 Fix the mixer body into position.
- 2 Connect the pipework.
- 3 Make good the wall by plastering around the mixer, up to the plaster guard.
- 4 Fix the waterproof membrane with tiling adhesive.
- 5 Tile the wall.
- 6 Trim back the mixer body flush with the tiles.
- 7 Fit the sealing plate.
- 8 Attach the faceplate and handles.

SHOWERING

Ceratherm 100

This exposed thermostatic bar valve is a major advance in shower technology. It's slim and elegant form incorporates three key innovations: a cool touch body, eco button and Fast Fix wall bracket.

Temperature control

To make showering safer the temperature handle has a built-in 40°C safety stop with override. The control mechanism has a temperature limit stop which can be set to a maximum of 40, 43, 45 or 50°C even in override.

Fast fix wall bracket

Included with the shower mixer. See opposite for step-by-step fitting instructions.

Eco button

Conserve water using the eco button which limits water flow to 50%. A manual override provides extra power when needed.

Cool body

Safe for families and vulnerable users. The exterior of the valve keeps cool at all times by running cold water around the hot water flow.

Features

'Set and leave' control – set your chosen temperature and leave it

Temperature handle has a built-in safety stop at 40°C with a manual override for safer showering

Temperature control mechanism has a temperature limit stop which can be set to 40, 43, 45 or 50°C

Automatic safety shutdown should the hot or cold water supply suddenly fail

Cool touch body ensures it is safe to touch

Eco button reduces water flow to 50% save water consumption with a manual override to increase water to full flow

Ceramic disc control for smooth turning action and no drips

Shower packs include a removable 8 litres per minute flow regulator to save water

Freedom Dual version with metal pin handles for easier turning

Shower mixer includes a fast fit bracket to save on installation time and cost

Bath shower mixer includes legs for rim mounting

5 YEAR guarantee

SHOWERING

Ceratherm 100 Shower pack

Fast fix installation

- 1 Ensure water pipes are level and spaced 150mm from the centres. Leave 50mm protruding.
- 2 Couple the gasket to the rear of the wall plate with the 3/4" connectors.
- 3 Slip the wall plate over the water pipes and screw tightly to wall. Tighten the threaded plugs to secure olives onto the water pipes.
- 4 Mount the shroud over the wall plate.
- 5 Fit the assembled valve unit to the shroud. Tighten the captive nut with an adjustable spanner.
- 6 Attach the lower hose to the valve outlet. The shower mixer is now ready to use.

SHOWERING CTV

A thermostatic shower valve that offers easy installation and exceptional value without compromising on style or quality. Available as an exposed or built-in model CTV gives precise control over water temperature and flow from a single handle.

Features
Recommended for high & low pressure
Temperature control mechanism has a temperature limit stop which can be set to 40, 43, 45 or 50°C
Automatic safety shutdown should the hot or cold water supply suddenly fail
Extended lever model for less able users

Meets the requirements of TMV3 and NHS D-08 schemes
Exposed valve is suitable for concealed or exposed rising or falling pipework
Fits standard pipework centres of 153mm (adjustable from 147-155mm)
Shower packs include a removable 8 litres per minute flow regulator to save water
5 YEAR guarantee

ACCESSORIES

NEW Prosys installation systems

There's more to great bathroom design than meets the eye. What goes on behind the wall can be as important as what goes on in front of the wall. The Ideal Standard Prosys range of installation systems and flushplates work seamlessly with our range of ceramics and fittings ensuring every layer works together. Prosys ensures that you can configure our products not just to create a beautiful design, but one that is easy to install, hygienic and sustainable too. A bathroom that works on every level.

Prosys features

Full height and short height WC frames for wall mounted bowls

Quality concealed cisterns with service tunnel for use with back-to-wall bowls

Pneumatic, mechanical and electronic actuation options

Special Smartvalve inlet valve to help reduce water consumption

Comprehensive range of contemporary dual flushplates in four finishes

Luxury electronic plates in ceramic and glass options

Compliant with all latest UK water regulations

Easy, quick installation and effortless tool free maintenance

Washbasin frame options for deck mounted or built in installation

Guarantee

Ideal Standard have been producing bathrooms for more than 100 years. Intensive and continuous testing is the key to class-leading durability. Designed to endure the impact of daily use all of our products are guaranteed to perform stylishly and reliably, year after year.

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

1. All ceramic products are guaranteed for a lifetime.
2. Acrylic capped shower trays, Idealform and Idealform Plus+ acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, IDEAL SOLID® shower trays, mixers and taps, WC seats and cistern fittings are guaranteed for 5 years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website: www.fastpart-spares.co.uk.)
4. Shower enclosures and bath screens are guaranteed for 10 years.
5. Parts (including push-button flush valves) are guaranteed for 5 years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. The guarantee is transferable and applies to the product not the purchaser, provided guarantee registration details are passed on to the new owner. For full conditions, please refer to our website: www.idealstandard.co.uk/guarantee.

Ideal Standard pursue a policy of continuing improvement in design and performance of our products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints. Colour reproduction is as accurate as possible within the limitations of the printing process.
