BY CAVALIER BATHROOMS

stylish, contemporary and traditional ranges of **taps** and **showers**

Cavalier is a british company which has inspired bathrooms for over 100 years from its Yorkshire base. The Niagara® brand is part of the Cavalier brand portfolio featuring the latest designs of taps and showering products with premium materials, outstanding quality and friendly customer service. 2020 saw the aquisition of the **tremercato** brand, some of their ranges are incorporated within this brochure.

CONCEALED SHOWER VALVES

niagara

Twin Concealed Valve

The twin concealed shower valve will operate one shower accessory - a fixed head or a slide rail kit.

Triple Concealed Valve

The triple concealed shower valve will operate two shower accessories - these can work separately or run at the same time.

Features

Flow and temperature are controlled separately

Thermostatic cartridge maintains showering temperature to +/- 1 °C

Ceramic disc flow control cartridge

Automatic shut-off in the event of cold water supply failure, to prevent scalding

Temperature factory set to a 38°C to eliminate the ability to select an unsafe temperature

Additional Features

Our Concealed shower valves benefit from built in isolating valves that enable the product to be serviced from the front without disrupting the supply.

A discrete spirit level placed on the internal valve body enables quicker installation.

All Concealed Valves are WRAS approved with the exception of Equate & Observa Matt Black and Brushed Brass Valves.
