BATHROOMS FOR LIFE

LONDON

EDITION 25

An aerial photograph of a coastline, showing the transition from light turquoise water near the shore to deep, dark blue water further out. The water's surface is textured with small waves and ripples. The land is visible on the left side, appearing as a lighter, sandy or rocky area.

ABOUT US

Everything begins with inspired design at Saneux; it's the only way we know. That's why every product and accessory we make has been imagined, drawn, and perfected by designers who really understand how shape and form can make a bathroom amazing.

Looks alone are never enough though, so we also pay fanatical attention to detail when it comes to creating bathrooms that perform flawlessly, last a lifetime, and are kinder to the planet too.

DESIGN

QUALITY

A bathroom should enhance your life and deliver that unmistakable sense of calm and well-being, and for that you need the peace of mind that comes from knowing every element has been made and supplied with quality in mind.

From the design, materials and engineering that goes into our products right through to the way we look after you and your project, everything about the way we work sets new standards.

The vitreous china we use in our products is better known as ceramic, and its heritage dates back to ancient Egypt. Shiny, impervious and undeniably beautiful, it's also a wonderfully durable material that keeps its good looks no matter how hard a life it has, which is why it works so well in hotels and busy buildings, not just private homes.

Things have moved on since the Pharaohs, and our products today are made using state-of-the-art technologies, achieving tolerances so tight that their performance is reliably high and their fit is consistent and seamless. That's why, over the course of our 20 year history, we've put smiles on the faces of millions of satisfied users all over the world, not to mention their architects and fitters too.

CERAMIC

A place for everything and everything in its place, they say. We couldn't agree more.

At Saneux, we know that neat, seamless and well organised spaces are the key to feeling calm, and nowhere more so than in your bathroom. To make it happen, we use intelligent design and our acute understanding of spacial layouts to create interiors that are safe, functional and a joy to use. Interiors whose ingenious use of storage creates the order and harmony you need for relaxing.

All this practicality never comes at the expense of style though. Our talented designers have an instinct for aesthetics and an eye for detail, producing bathroom furniture that looks a million dollars, but without ever costing it.

STORAGE

CASE STUDIES

RESIDENTIAL

EMPRESS WORKS

RENOWNED FOR BEING A HUB FOR YOUNG PROFESSIONALS AND AN ARRAY OF HIPSTER BARS & RESTAURANTS, BETHNAL GREEN WAS THE PERFECT LOCATION FOR 56 NEW WAREHOUSE STYLE 1, 2, AND 3 BEDROOM APARTMENTS BY PROPERTY DEVELOPERS AITCH GROUP IN 2020.

To keep in line with the industrial aesthetic of these warehouse style apartments, we worked closely with Aitch Group to ensure the bathroom products selected would complement the entire apartment whilst still holding its own uniqueness.

The main focal point of the bathrooms was the brassware, which is why matte black was the perfect finish to create an industrialised yet functional interior. Our Cos matte black brassware was used with our Austen basins & custom finished units, Sansteel baths, and Walkin shower enclosures. Our Zurich handles and Pulse accessories both in matte black tied this all together to provide consistency.

RESIDENTIAL

ROYAL ARSENAL RIVERSIDE

THIS PRESTIGIOUS LONDON LOCATION HAS A RICH AND ILLUSTRIOUS HISTORY, AND TODAY IT BOASTS SUPERB ACCESS TO BOTH THE OVERGROUND AND DOCKLANDS LIGHT RAILWAY SERVICES AS WELL AS STUNNING VIEWS OF THE ICONIC RIVER THAMES. TOGETHER, THESE HELP MAKE IT THE PERFECT SITE FOR A MAJOR DEVELOPMENT BY BERKLEY HOMES.

Completed in 2020, the project we were involved in required bathrooms for 440 stylish new apartment homes. Working closely with the client, their architects and other third parties, our Contracts Team created stylish yet functional interiors using a variety of our products. Some products featured in the fit-out include our Indigo WCs, Agua Maison baths, Flushe 2.0 framed cisterns and plates, Walkin shower and bath screens, XE shower trays and Tooga brassware.

COMMERCIAL

55 GRESHAM ST.

STUNNING DESIGN AND METICULOUS ATTENTION TO DETAIL UNDERPIN THIS WONDERFUL OFFICE DEVELOPMENT IN THE CITY OF LONDON, COMPLETED IN 2018 JUST A FEW MINUTES' WALK FROM ST PAUL'S.

Embracing 121,569 sq ft over 11 storeys, this is a building very much created with user comfort and well-being in mind, and that extends to its bathrooms.

As always, we worked closely with the client to make sure every element of the brief was taken care of, supplying products for a total of 80 WCs and basins, together with the building's shower rooms. Naturally, products had to reflect the building's modern, high-end look and feel, so we supplied items including our Austen WCs, Podium and Matteo basins, Cos brassware, Flushe 2.0 flushing systems and flush plates, and H25 stone resin slim shower trays.

HOSPITALITY

MERCURE HOTELS

WE WORKED WITH THE RENOWNED MERCURE HOTELS BRAND AND ITS INTERIOR DESIGN PARTNER, SPACEBRAND, ON TWO SEPARATE PROJECTS WHICH WERE BOTH COMPLETED IN 2019.

Our task was to supply bathroom products for a total of 334 hotel rooms, divided almost evenly between the company's St Paul's Hotel and Spa in Sheffield and, in Cardiff, Mercure's Holland House Hotel and Spa.

Stylish, functional yet hardwearing products were essential in these mid to high-end en-suite rooms, which embraced luxury spa rooms as well as executive doubles and suites with city views. To offer the perfect blend of contemporary good looks and long-lasting practicality that's so vital in the busy hospitality sector, we helped the client choose three key products from our ranges: Uni WCs; Flushe 2.0 frames and plates; and our stunning Lola free standing baths.

OUR SHOWROOMS

CROYDON

Committed to quality, innovation and design for over 20 years, Saneux brings high quality bathroom experiences into the homes of consumers around the world, and our Croydon showroom is a reflection of our commitment to excellence at every stage of your bathroom experience. From product development to the finished product installed in your home, our distinctive solutions elevate any bathroom into a complete and luxurious space that transcends the ordinary. Using durable materials like porcelain, brass, and vitreous china, our products are just as beautiful as they are functional, and our knowledgeable staff are available for in-depth consultations to solve any design challenge you might face.

CLERKENWELL

As Clerkenwell is the renowned interior design hub of London, it made perfect sense to base our second showroom here, a prime location that is situated only a short walk away from Farringdon station. You will find a vast selection of products on display made from the finest quality of materials like vitreous china and brass across a variety of on-trend colours and finishes. The showroom often finds itself showcasing upcoming ranges, so you can be one of the first to see some exclusive brand new products. Book an appointment online and meet with our knowledgeable staff, including the designers of our products, to have an in-depth consultation to solve any design challenges you may face.

CONTRACTS SUPPORT

Saneux emphasizes on the importance of solid partnerships with Designers, Architects and Builders that are an essential part of our work. We have formed a specialist department that focuses entirely on the ever-growing building and commercial sector. Our DAB team is exclusively dedicated to building new collaborations and nurturing existing relationships with our valued contracts as well as ensuring our clients receive a consistently high level of service.

At Saneux, we create the right atmosphere required to work together with Designers and to help them in their task to create exceptional homes. Apart from helping out in the selection process, designers are welcome to give us their plans on any stage of construction and we are equipped to also help stylistically with new product ranges as well as providing them with high quality CG renders of their installations.

However, our job doesn't end there. Our team is keen to assist Architects with the intricate and lengthy undertaking of product specification. We act as trusted advisors providing organised instruction and use our expertise to enable them to achieve the desired results. We also built a dedicated support portal for troubleshooting and instructions and our Technical & Spares Department is always happy to provide long-term support for projects of any scale.

We always follow through our projects, from the design stages to the product selection process as well as the building stage. Working closely with Quantity Surveyors, we suggest alternatives to existing specifications, offering advice and recommendations on technical issues such as space saving and maintenance. It is our responsibility and interest to make certain that the projects are maintained at an exceptional standard and therefore perform inspection visits for the purposes of project evaluation and support, years after completion.

OUR RANGES

Pictured: HYDE 70cm basin with 1 drawer unit and roll side unit in matte sage. Tokyo 500mm handles in matte black. HYDE WC unit in matte sage. MATTEO back to wall pan 8 seat. and OSKA 70cm electric mirror.

HYDE

The HYDE collection offers luxury design that adds value to your bathroom. The range consists of basins & units with one drawer, two drawer and two door unit options, along with additional side units and mirror cabinets. The most exciting product in this range is the short projection cloakroom basin & unit at only 28cm that saves space, yet provides essential storage facilities. All units are available in 3 modern finishes - matte white, matte fiord and matte sage - giving you more choice to create your perfect relaxation space.

HYDE

Please allow 5cm of space either side for door units to allow for the doors to open fully.

UNI

The UNI range has been transformed to be an extremely modular range of sleek ceramics and furniture. With handle-less furniture available in sizes from 50cm to 160cm in 3 flawless finishes, there is a wide selection of combinations to choose from. Complete your bathroom by opting for one of the rimless WCs from the selection of toilets within this range.

UNI

Choose from the selection of 3 unit finishes within the UNI range: matte white to give your bathroom a more modern look; matte anthracite for a darker look; or English oak which is a lovely natural wood effect finish. These are available in 1 and 2 drawer options, as well as in countertop form which also has a matte carrara marble countertop finish if you want to incorporate a luxurious contrast to your unit.

FRONTIER

The FRONTIER collection was created with choice and versatility being at the forefront of the R&D process. We know every bathroom is different, which is why we want to give you more choice than ever before. The furniture came together based upon Scandinavian influences to deliver the ultimate contemporary and minimalist vanity units.

FRONTIER

Being our most modular range, FRONTIER is available in a choice of three colours all with a delicate hand painted finish, three popular sizes, and in floor standing and wall mounted variants. You can also choose between three worktop colours, ten unit handles, and an optional tray to accompany the floor standing unit to allow for extra storage. If that wasn't enough, LED mirrors are available to complete this range.

INDIGO

The INDIGO range is specifically designed to provide you with the opportunity to choose the products that are just right for you. Boasting a stylish handle-less design and five times lacquered finishes, our units promise quality and durability. Opt for either a typical basin and unit combination from the selection of door and drawer units across 4 sizes and 3 colours; or a matte carrara countertop and unit pairing - you are truly spoiled for choice.

INDIGO

There are three stunning finishes in the INDIGO range: the classic gloss white which suits all bathrooms; gloss grey if you want your unit to stand out; and matte pewter grey for a more neutral bathroom look. These finishes are available across all the units. From 2 door units in sizes 50cm and 60cm, through to 80cm and 100cm 1 and 2 drawer units, there is a size available for every bathroom. To complete the collection, the matte carrara countertop makes for a beautiful addition if you're looking to make your bathroom more luxurious.

PRAGUE

PRAGUE is known for its rimless WC range which offers maximum hygiene, zero splash and ultra low noise. The collection features a classic close coupled toilet with a svelte design that will suit all modern bathroom interiors, as well as a wall hung toilet which is the perfect option for making bathroom spaces feel bigger. Both WCs can work alongside all of our contemporary furniture ranges.

AIR

The AIR range is a collection of furniture and ceramics characterised by the fusion of materials and product design. AIR offers space saving solutions like never before: deep bowls & short projection. The range consists of a selection of basins, furniture and mirrors in 40cm, 60cm and 80cm configurations along with elegant rimless WCs.

REGENCY

The REGENCY collection is one of a kind. Boasting an art deco inspired design with angular drawer fronts, the REGENCY furniture can transform any bathroom it finds itself in.

REGENCY

It comes in 90cm and 130cm configurations with the choice of chrome or matte black handles, gloss or matte Marquina marble countertops, and white and black gloss or matte undermount basins to be paired with the unit. Along with this, 3 bevelled mirrors are available to tie the range together.

SIENNA

Introducing SIENNA, our collection of simplistic yet stylish countertop washbasins. With a mix of round, square, and oval designs all with delicate rims, there will be a style to match your dream unit. The sizes range from a compact 35cm countertop basin to suit smaller countertops & units, through to a 60cm basin which works with the more spacious countertops & units, ensuring there is a choice for everyone.

Pictured: SIENNA 50cm basin, FRONTIER 80cm countertop in matte white, and COS tall basin mixer in brushed brass.

VOLATO

VOLATO is a unique collection of ours that initially started as one mirror but expanded to include washstands to suit the modern day aesthetic of minimalist bathrooms. We consider this our exclusive matte black range, and each item in this range can uplift your bathroom in an instant whether you opt for either the hanging mirror or mirror cabinet, and a wall hung or floor standing washstand.

SHOWER PACK

Inc. concealed fixings | DOCMSPI | **£3,352.00**

Individual components

- 1x concealed TMV3 thermostatic sequential shower kit
- 2x 800mm lift & lock steel hinged rails
- 3x 600mm stainless steel grab rails
 - 1x 450mm stainless steel grab rail
 - 1x 900mm stainless steel grab rail
 - 1x slider bracket
- 1x 1200x1200mm shower rail
- 2x 1800x2000mm weighted shower curtains
- 1x DOCM shower seat with legs
- 1x robe hook

MIRRORS

Our stunning collection of mirrors range from LED mirrors to mirror cabinets as we know every individual bathroom has different needs. Browse through our GLACIER+ or OLYMPUS mirror cabinets if you want extra storage space without compromising on style, or go for a LED mirror from our OSKA collection; its simplistic design will suit any bathroom style with ease.

Pictured OSKA 70cm electric mirror, MANTICO 34cm basin, EDEN basin mixer in chrome, and COS bottle trap in chrome.

BRASSWARE

WATER SYSTEMS

TO HELP YOU SELECT THE OPTIMUM BRASSWARE FOR YOUR PROJECT, WE HAVE MARKED OUR PRODUCTS WITH THE PRESSURE REQUIREMENT.

THIS IS REPRESENTED AS FOLLOWS:

LP – MINIMUM 0.2 BAR

MP – MINIMUM 0.5 BAR

HP – MINIMUM 1.0 BAR

FIGURE 1

Cold water is stored in a header tank which feeds the hot water tank, and usually the cold water to the bathroom. This means the water is delivered at low pressure and therefore only taps with LP or minimum 0.2Bar (2 metre Head) can be used. If the header tank is in the loft space and the taps are on the ground floor the pressure may be higher so taps marked MP 0.5 bar (5 meter head) may be able to be used. You will need to check your requirements with your plumber as, if a power shower is required a pump will need to be fitted.

FIGURE 2

The unvented cylinder stores hot water at mains pressure, usually between 2 and 3 bar, allowing hot and cold water to be delivered at the same pressure. This means a power shower can be achieved without the need of a pump. All LP, MP and HP taps and fittings may be used.

FIGURE 3

A combination Boiler heats water on demand, and although it is fed by mains pressure this is regulated to the speed which the boiler can heat the water.

All LP and MP taps and fittings may be used.

FIGURE 4

A pump assisted system will deliver water at high pressure and depending on the specifications of the pump fitted LP, MP and HP taps and fittings may be used.

*These are given as a guide only. To ensure optimum compatibility please refer to a qualified plumber and full product specifications.

FUJI

The FUJI collection of brassware is a beautiful blend of curved and angular design. The selection of mixers in chrome and matte black can work effortlessly with all our furniture ranges, with the mini mixers perfect for cloakroom basins and the tall basin mixers suiting countertop basins seamlessly.

EDEN

The EDEN brassware range is like no other, with the curved swan-like rotating neck emitting an elegant feel. The single lever basin mixer was carefully created to achieve an organic look from the spout to the lever handle, enabling it to enhance your bathroom design unlike any other basin mixer. It's available in four sophisticated finishes to give you more choice: chrome, matte black, brushed brass and brushed nickel.

Pictured EDEN basin mixer in brushed nickel, and SENNA 60cm washbasin.

CROMWELL

The basis for the design of the CROMWELL collection was to emulate a strong, traditional style of brassware that has elements of contemporary features to fit in with modern day design. There are varying looks of the CROMWELL tap as it features cross handles and lever handles, depending on the look you want to achieve, with matching shower items also available.

Pictured: CROMWELL 3 piece basin mixer with cross handles, and SOFIA 40cm basin.

SHOWER ENCLOSURES

We are proud to carry a vast range of showers, trays, and kits for you to create your perfect showering space. Choose from sliders, pivot doors, bi-fold doors, and panels, then pair these with one of our 25mm shower trays from our H25, L25 or XE ranges. To complete your shower, select one of our shower kits or even build your own with our step by step guide, with finishes available in chrome, matte black, brushed brass and brushed nickel.

Pictured: TATE 1400mm slider in chrome.

Please note that these screens require a tray with a minimum outer edge of 60mm.

SHOWER KITS

We have a vast selection of shower packages to match your chosen shower enclosure and 25mm shower tray. Opt for our staple round COS or square TOOGA shower packages, or if you're looking to have a more traditional bathroom look, our CROMWELL range is the perfect choice.

SHOWER KIT GUIDE

This section is where you choose the shower components that are essential in creating your perfect shower kit.

There is a maximum of 4 steps you can take to create your personalised shower kit:

1. Select a one-way, two-way or three-way thermostatic shower valve, depending on how many outlets you will need.
2. You then move onto selecting a shower head & arm, or you can skip straight onto step three...
3. You can opt for either a slide rail, handset, hose and outlet elbow; or handset, hose and outlet elbow & holder.
4. The final step, typically used in conjunction with two-way or three-way valves, is selecting a bath filler, overflow & waste.

TERMS IN BRIEF

TERMS IN BRIEF

<p>1. GENERAL</p> <p>These conditions set out the legal basis upon which we will supply goods. No variation or representation will be valid unless confirmed in writing by a partner.</p> <p>2. APPLICATION OF TERMS</p> <p>2.1.1 By placing an order or accepting a quotation the Buyer shall be deemed to be making an offer to buy the goods subject to these conditions.</p> <p>2.1.2 No order shall be accepted by the Company until written confirmation is issued or (if earlier) the Company delivers the goods.</p> <p>2.1.3 Any quotation is given on the basis that there is no contract until the Company has accepted an order.</p> <p>2.2 Quotations unless agreed in writing will be valid for 30 days provided that the Company has not previously withdrawn it.</p> <p>3. DESCRIPTION</p> <p>3.1 The quantity and description of goods shall be set out in the Company's quotation or acknowledgment of order.</p> <p>3.2 All brochures, advertisements and samples are for illustrative purposes only. Dimensions are given as a guide only. Dimensions should not be used for surrounding furniture, fixtures and fittings until the product is on site.</p> <p>4. DELIVERY</p> <p>4.1.1 Delivery shall take place at the Buyer's place of business unless agreed otherwise in writing by the Company.</p> <p>4.1.2 Dates for delivery are an estimate and time for delivery shall not be made of the essence unless expressly agreed in writing by the Company. If no dates are specified delivery shall be within a reasonable time.</p> <p>4.2 The Company will not accept liability for any losses caused by delay in delivery.</p> <p>4.3 If the Buyer fails to take delivery or the Company is unable to deliver the goods because of the fault or failure of the Buyer then:-</p> <p>(a) Any risk in the goods shall pass to the Buyer (b) The goods shall be deemed to have been delivered; and (c) The Company may store the goods at the Buyer's expense.</p> <p>4.4 The Company reserves the right to deliver the goods by separate instalments.</p> <p>5. RISK AND OWNERSHIP</p> <p>5.1 Ownership in the goods shall not pass to the Buyer until payment in full has been made. The Buyer grants to the Company an irrevocable licence to enter any premises where the goods are or may be stored in order to impact them or to recover them in the event of failure to make payment in full.</p> <p>5.2 The risk in the goods for nuisance purposes shall pass to the Buyer on delivery.</p> <p>6. PRICE</p> <p>6.1 Unless agreed in writing by the Company the price shall be the price excluding VAT set out in the Company's price list on the date of delivery or deemed delivery.</p> <p>7. PAYMENT</p> <p>7.1 Payment in cleared funds or cash shall be made on or before delivery (unless credit terms have been agreed in writing by the Company). On occasions the Company will require a Director's guarantee.</p> <p>7.2 The Company reserves the right to claim interest under the late payment of commercial debts (Interest Act 1998).</p>	<p>7.3 In the event of a customer with a credit account going into arrears, if legal action is taken to recover the debt, all amounts owing to the Company shall be deemed as payable, including any current amount.</p> <p>8. QUALITY</p> <p>8.1 The Company will not accept claims for stoppages or damaged goods unless notified within forty-eight hours of delivery. All goods should be physically checked before installation and defects reported to the Company.</p> <p>8.2 The Company shall not be liable for the cost of installing faulty goods.</p> <p>8.3 The Company reserves the right to alter the specifications and product range without prior notice.</p> <p>8.4 The Company will in the event that it supplies faulty goods at its own option repair, replace the goods or refund the price of the goods. If the Company elects to refund the price of the goods the goods shall be returned to the Company at the Company's request and at the Company's expense.</p> <p>8.5 The Company accepts no liability in relation to goods damaged as a result of failure to follow published instructions or damage caused to the goods after delivery.</p> <p>8.6 The Company's total liability in contract or tort shall be limited to the contract price. This limitation shall not apply to liability for personal injury or death, fraud or any other matter which it will be illegal for the Company to exclude or attempt to exclude.</p> <p>8.7 In the event of a site visit request to inspect alleged faulty goods, a charge of £150 excluding VAT plus expenses will be applied if the goods are found to have been incorrectly installed. If upon inspection the goods are found to be faulty due to a manufacturing issue, the fee will be waived.</p> <p>9. RETURNS</p> <p>Returns will be accepted within three months of delivery provided the goods (exclusions apply - see below) are returned undamaged, have not been installed, and with full packaging. It will be subject to a handling charge dependant on the condition of goods and packaging, and will in any event be a minimum of 25%.</p> <p>9.1 Returns for the following products will not be accepted under any circumstances:</p> <ul style="list-style-type: none"> • All shower enclosures • All shower trays • All baths (free standing & non) • Washbasins with extra tap holes <p>9.2 Returns may submitted directly to returns@saneux.com providing the following is mentioned:</p> <ul style="list-style-type: none"> • Saneux delivery reference • Date of purchase • No. of products to return • Product codes • Reason for return • Image of box in perfect condition <p>10. ASSIGNMENT</p> <p>10.1 The Company shall be entitled to assign the benefit of the contract.</p> <p>10.2 The Buyer shall not be entitled to assign the benefit of contract.</p>
--	--

Please refer to each product section for guarantees.

The terms of our guarantee are as follows:-

1. The guarantee only applies to products which:
 - 1.1 are installed in accordance with the fitting instructions supplied, with the products for use in a bathroom with suitable ventilation or a suitable extractor fan, and;
 - 1.2 Where the product is a cistern or a tap, it is fitted in accordance with current local and national water regulations, and;
 - 1.3 Where the product is a **Saneux** solid surface, it has been stored flat at normal room temperature prior to installation.
2. In the unlikely event that a product supplied by **Saneux** to which this guarantee applies, fails within the guarantee period from the date of purchase, **Saneux** will supply the customer with a free replacement for the part of the product that has failed, if such failure arises in **Saneux's** reasonable opinion from defects in manufacture or quality of materials and notice in writing giving details of the defects about which there is a complaint given to **Saneux**. The replacement part supplied will be the nearest equivalent to the failed part available in **Saneux's** range at the date the replacement is supplied. Liability is limited to individual products and does not cover consequential loss or damage. The customer will be required to pay the cost of installation of the replacement part.
3. The provisions of this guarantee do not affect the customer's statutory rights.
4. The **Saneux** guarantee is limited to the original purchaser and cannot be transferred; this includes the purchasing of ex-display items.
5. To obtain replacement parts in accordance with the provisions of this guarantee please contact the retailer who originally supplied the products.
6. The guarantee only applies to products which are cared for and cleaned in accordance with **Saneux** care and maintenance instructions.

SANITARYWARE

It is the responsibility of the individual installer to ensure the products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

When installing **Saneux** wall-hung sanitaryware, please ensure the appropriate fixings are used or alternatively a suitable framework.

Sanitaryware dimensions stated should be given a +/- 5mm tolerance. There is a lifetime guarantee on all sanitaryware products supplied by **Saneux** against manufacturing defects.

CABINET FINISHES AND VENEERED FURNITURE

We cannot guarantee an exact colour match for cabinet finishes due to colour variations incurred as a result from print process. All cabinet finishes reproduced in this brochure should be used as a guide only.

When installing **Saneux** bathroom furniture into a new property or extension we strongly advise the building is dry, well ventilated and adequately heated. In the production of **Saneux** bathroom furniture, great care is taken in the selection of material. However, due to the manufacturing process, it is not possible, nor do we feel desirable, to strive for total uniformity of shading and grain pattern. Our aim is at all times to operate with controlled parameters which recognize that some variation is both acceptable and aesthetically pleasing.

There is a five year guarantee on all **Saneux** bathroom furniture against manufacturing defects.

BATHROOM FURNITURE

Although designed for bathroom use, bathroom furniture will deteriorate through excessive water spillage, splashing or condensation; our bathroom furniture is not fully waterproof.

Claims cannot be accepted if we regard the furniture to have had improper use.

It is advised that all bathrooms are well ventilated using a suitable extraction fan. Furniture must be wiped dry after contact with water. There is a five year guarantee on bathroom furniture subject to our furniture care and maintenance guidelines.

ELECTRICAL PRODUCTS

Please refer to our bathroom regulations for electrical products. If in any doubt, please consult a qualified electrician for more details. There is a ten year guarantee on all electric towel rails supplied by **Saneux** against manufacturing defects.

DUAL FUEL TOWEL RAILS

Please refer to our bathroom regulations for electrical products. If in any doubt, please consult a qualified electrician for more details. There is a five year guarantee on all dual fuel towel rails supplied by **Saneux** against manufacturing defects.

BATHS

All baths are supplied un-drilled. All Stetson and free standing baths are manufactured from high quality 5mm cell cast acrylic and are fully reinforced. All Sansteel baths are manufactured from high quality vitreous enamel steel. There is a five year guarantee on all baths supplied by **Saneux** against manufacturing defects. Any defects must be reported prior to installation commencing.

SHOWER SCREENS

There is a ten year guarantee on shower screens supplied by **Saneux** against manufacturing defects with the exception of seals and metallic parts which carry a 12 month guarantee.

STONE RESIN TRAYS

There is a lifetime guarantee on all stone resin trays supplied by **Saneux** against manufacturing defects. Stone resin is a natural product, meaning the trays cannot be guaranteed level throughout. All stone resin trays have a working tolerance of 5mm. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

CONCEALED CISTERNS

There is a two year guarantee on concealed cisterns supplied by **Saneux** against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

BRASSWARE AND ACCESSORIES

All **Saneux** brassware, unless otherwise stated, carry a 5 year guarantee*† as standard from date of purchase which covers all manufacturing defaults. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning. Care should be taken in hard water areas to ensure the cartridge is regularly cleaned according to our instructions. To clean in hard water areas, use a limescale filter and clean with warm soapy water. No harsh chemicals should be used to clean **Saneux** brassware products.

* This is with exception of shower hoses, "O" rings, diverters and cartridges which carry a 12 month guarantee.

† The guarantee can be extended to 15 years by registering the product on our website. Visit saneux.com/guarantee for more information.

WORKING PARTS AND COMPONENTS

There is a two year guarantee on all working parts and components supplied with any **Saneux** product, as long as installation has been carried out correctly.

Working parts of all toilet seats are limited to a 12 month warranty period.

TERMS IN BRIEF

SAFETY INSTRUCTIONS FOR CERAMIC SANITARYWARE

To ensure a safe and correct installation, please read the instructions carefully:

- Installation and fixing of the ceramic sanitaryware and accessories to be done by a skilled and trained professional.
- Before installation kindly check the sanitaryware for any damages.

If found damaged the product can:

- Cause injury to the user
- Result in water leakage
- Affect the product feature

Ceramic sanitaryware is fragile. Handling and installation should be done very carefully.

Avoid jerks and bumps during installation.

Check the location of mounting and fitting holes before installation. Kindly refer to the instructions specified in the installation manual.

Installation of sanitaryware should be in horizontal position. Kindly verify with spirit level before use.

During installation and before connecting to the water supply kindly flush and clean all the outlet and inlet pipes for sand, rubble and trash particles.

After installation we strongly recommend that the sanitaryware should be securely covered to prevent contamination or damage by any form of building materials such as paint, plaster, tile adhesive, grout or sealants until all building and finishing work is completed.

After installation kindly check for the grip of the ceramic sanitaryware on the mounted surface to prevent injuries. If the fittings are found loose the product can:

- Fall down and cause injury to user.
- Result in water leakage.

Maximum weight resistance and stability for:

- Washbasins – NO MORE THAN 150 KILOGRAMS
- Water Closets – NO MORE THAN 400 KILOGRAMS
- Bidets – NO MORE THAN 400 KILOGRAMS

GUIDELINES FOR USE OF CERAMIC SANITARYWARE

To ensure the longevity of the product, kindly follow the instructions carefully:

- Flush the piping with plenty of water prior to installation. It is recommended to use filter taps
- We recommend the use of soft water for all products. If necessary install a water softener
- Do not clean the products with concentrated acids (HCL, HFA, H₂SO₄).
- Do not use sharp edges/iron brush for cleaning.
- After use all products should be maintained by wiping with a soft, damp clean cloth
- Do not expose the ceramic to fire
- Avoid physical and thermal shock during use

We have a policy of continuous improvement and reserve the right to change the specification without notice.

CARE INSTRUCTIONS

Limescale cleaner can be used if necessary, however it should not be used for everyday cleaning and it should not come into contact with metal parts.

Sanitaryware

All ceramic surfaces – washbasin (not unit), WC pan and seat should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.

Brassware/Chrome surfaces

Tap, bath waste, shower rail, shower valve and flush plate. Again, these should be washed with a mild household detergent. These can be polished using a non-abrasive buffing cloth. Do not leave the detergent on the products for any period of time.

In order to preserve the original look of your mixers, it is necessary to observe the following instructions for care:

To remove dirt and lime scale stains clean the mixers with water and soap or specific products for chrome-plated surfaces and rinse with clean water and dry with a soft cloth.

Avoid using detergents or acids, rough sponges or steel wool on chrome-plated, coloured, gold-plated or burnished surfaces.

For the plastic or rubber parts do not clean with alcoholic, disinfectant detergents or any solvents, but follow the same procedure as for the mixer body.

Under basin furniture

This should be wiped clean with a soft clean cloth. After use and contact with water, please remove water deposits.

Usage:

Please note; our furniture cannot be used in wet rooms or rooms with minimal ventilation. Our furniture should only be used in clean dry environments at room temperature. It should also be situated away from sources of heat and sunlight. Exposure to these sources will cause the vinyl to crack and peel. Therefore this is not covered in our product guarantee.

Cleaning:

Do not use abrasive cleaners, solvents, polishes, waxes or steam cleaning tools. As a precaution to test the suitability of a cleaning product, apply to an inconspicuous area, minimising the time of exposure and the amount of cleaning agent (diluting as recommended by the supplier) in order to prevent any damage to the surface.

Baths

These should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.

Further information

In the event of any further information needed or any spare parts, please ring 020 8686 5100 and quote your job reference.

All installations must comply with guidelines based on the zone requirements.

These regulations apply to domestic installations only.

We recommend that all electrical work carried out is done by a suitably qualified electrician with the current IEE wiring regulations (17th Edition).

Bathroom lights are classified using an IP (Ingress Protection) rating. The IP characters are followed by 2 numbers which refer to the level of protection against the ingress of foreign bodies (1st number) and protection against the ingress of liquids (2nd number).

ZONE 0 – is inside the bath or shower. Any fitting used in this zone must be low voltage (max 12v) and be rated at least voltage (max 12v) and be rated at least IP67 (immersion proof)

ZONE 1 – is an area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required.

ZONE 2 – is an area stretching 0.6m outside the perimeter of the bath to a height of 2.25m from the floor. In this zone a minimum of IP44 is required. Around a wash basin, a radius within 60cm is considered as zone 2.

OUTSIDE ZONES – has no specific requirements unless water jets are likely to be used for cleaning purposes.

ALL ZONES – any electrical circuits in a bathroom must be protected by a 30mA Residual Current Device (RCD). Electrical equipment exposed to water jets such as a shower must be at least IPX5.

REFERENCE IP RATINGS FIRST NUMBER – PROTECTION AGAINST SOLIDS

Example	0	1	2	3	4	5	6
Protection against solid foreign objects	No protection	Full Penetration of 50mm diameter sphere allowed. Contact with hazardous parts not permitted	Full Penetration of 12.5mm diameter sphere not allowed. The test finger will have ample clearance from hazardous parts	A 2.5mm diameter probe shall not penetrate	A 2.5mm diameter probe shall not penetrate	Limited ingress of dust permitted (no harmful deposit)	Totally protected against dust
Effective protection from:	Non protection	Back of hand	Finger	Tool	Cable	Cable	Cable

REFERENCE IP RATINGS SECOND NUMBER – PROTECTION AGAINST LIQUIDS

Example	0	1	2	3	4	5	6	7	8
Protection against	No protection	Vertically falling droplets of water	Vertically falling droplets of water with the enclosure tilted 15° from the vertical	Protected against spray to 60° from the vertical. Limited ingress acceptable	Protected against water splashed from all directions. Limited ingress acceptable	Protected against low pressure water jets from all directions. Limited ingress acceptable	Protected against strong jets of water (for use on ship-decks). Limited ingress acceptable	Protected against immersion between 15cm and 1m	Protected against long periods of immersion under pressure
Effective protection from:	Non protection	Vertical dripping	Driving rain	Limited spraying	Splashing from all directions	Hosing jets from all directions	Strong jets from all directions	Temporary immersion	Cable
